Tony Howard has served as Director of Pickerington Public Library since 2015. Throughout his career in public libraries, he has focused on creating welcoming spaces, strengthening community partnerships, and helping children and families find the resources they need to thrive. He holds a Master of Library and Information Science from Kent State University.

As a father of five, Tony understands that children learn and grow in different ways and that families need schools willing to see each student as an individual. He joined the Oakstone Community School Board because he values the school's commitment to its students and families and wants to help sustain that work for years to come.

Tony brings experience in strategic planning, public stewardship, and organizational leadership to the board. He is particularly interested in connecting student needs and educational outcomes with the school's long-term financial strength and community awareness.
